The faces of nearly all the members of the Legislature from the "State of Allegheny" appear below. Several familiar ones will be missed. The youthful features of the new ones will doubtless lead the old campaigners to reflect on the pushing proclivities of the rising generation. Some old heads sit gracefully on the young shoulders, however, and Allegheny will undoubtedly hold her own on the Hill at Harrisburg. A FEW NEEDED REFORMS.

Mr. Pugh, of Somerset, Names Several

Changes He'd Like to See Made. [SPECIAL TELEGRAM TO THE DISPATCH.] HARRISBURG, January 8 .- Among the ew members of the House who did not return to their homes after the adjournment of a week is Representative Pugh, of Somerset, who has been giving some consideration to suggestions looking to the introduction of a bill to dignify the office of district attorney by removing the temptation of fees and allowing that official, in lieu of them, a good salary. Mr. Pugh thinks such an act would promote the interests of justice, while it would at the same time elevate the standard of the office. The same representative favors the passage of a bill reducing the charges of court stenographers, who, he says, are being paid too much under existing leg-

A well-guarded insolvent law, Mr. Pugh believes, is needed, and as an illustration of the want of such a measure he refers to the fact that in his town a number of young men have not only been obliged to sacrifice their homes to make good the embezzlement county officials on whose bond they were, but under ordinary circumstances they will not be able to recover the lost ground, because they cannot own any property until they have fully met the obligation which their kindness placed on them.

ADDITIONAL LAW JUDGES. Philadelphia to Be Accommodated at the

Expense of the State.

ISPECIAL TELEGRAM TO THE DISPATCH. 1 HARRISBURG, January 8 .- Several bills have been prepared for the consideration of the Legislature, providing for the creation Fow, of Philadelphia, is evidently going to make himself solid with the Philadelphia Judges, whom he proposes to relieve of much of their work by adding three to the number of members of the Common Pleas Bench of that city. Westmoreland, Northumberland and other counties will also be represented in demands for acts to give them each an

additional Judge.

The judiciary of the State now takes a slice of over \$500,000 annually out of the public treasury, and owing to the creation of new Judges the expense is gradually increasing. The records of the several courts in the State show that the Judges in very few districts are overworked, and in nearly all of them they have an abundance of leisure. Instead of adding to the number of Judges the Legislature would do itself more credit by devising means by which the force could be lessened.

A COSTLY DECISION.

Heavy Lesses Sustained by the Fallure of the Harrisburg Inter-Municipal Act.

ISPECIAL TELEGRAM TO THE DISPATCH. HARRISBURG, January 8 .- The decision of the Supreme Court in declaring the intercost of paving and curbing Market street was about \$35,000, and owners of property abutting the street assessed in the aggregate share of the expense. Others paid a portion of their assessments, and some of them will oubtless decline to make further payments because of the Supreme Court decision. In addition to losing \$20,000 on account of paving, the Barber Asphalt Company rected expensive works here, which they will probably be obliged to remove. The company will lose in the State about \$100. 000, if the court should not reverse its opin

ion deciding the municipal act of 1874 un-constitutional as well as that of '87, INAUGURAL ARRANGEMENTS.

He will be assisted in his work by the exhis time in Washington between this and the inauguration, in the performance of his duties as Governor Beaver's chief of staff.

An order relative to the general information of the line of march will be issued in a few days. Governor Beaver, as Grand Marshal of the procession, is selecting mem-bers of his staff from the large number of persons all over the country whose names have been submitted to him the past month.

Some of the members who find it inconvenient to visit their homes because of the distance they would have to travel are favorable to Saturday sessions, but they are in a minority, and any effort they might make to expedite the business of the House would be promptly squeiched.

Hoosier statesmen who have known it all ever since election. The nearest approach to a statesman that has registered at the hotels to-day, barring Legislators who are coming into town on every train, was that "amoosin' cuss," ex-Congressman Roswell G. Horr, of Michi-gan. Mr. Horr was here once before, soon after election, and then ventilated his views as to himself in the Cabinet pretty freely. The gist of them was that there wasn't any more chance of his going into the Cabinet than there was of the angel Gabriel going to Hades, and that he didn't think much of the Cabinet anyway, and would not go into it it he had a chance.

WHY HE CALLED AGAIN. Mr. Horr's visit here at the present time s not to inform General Harrison that he has reconsidered the matter and will go into the Cabinet, after all, but is an incidental stopover in the course of his trip to fulfill lecture engagements. He made the people laugh at Lebanon, O., last night, and his next engagement is at Valparaiso, Ind., for which place he started after a short stop in this city. He went out to call upon General Harrison while the General was tramping about in the rain down

The story agrees with the belief here that one thing which Quay learned while here was that Mr. Wansmaker was not eligible for the Cabinet. It is taken as certain that Pennsylvanta ought to have some one in the Cabinet if Quay asks it, and, with Wanamaker counted out, almost any man Quay might

The President-elect will be inaugurated in Chicago clothes, and his wife and daughter will wear in Washington an outfit of tailormade costumes from the same tailor. Both the General's coats and trousers and the ladies' gown will be made at the same place, the establisment of George W. Matthews. Mr. Matthews was sent for to take the orders of the family some time ago, and to-day made his third trip to this city on that busi-ness. He took General Harrison's measure first, and orders for as rich and becoming suits as could be made for use on an inaug-

Still another visit by Mr. Matthews will be necessary before any cloth is cut. He will bring his artist with him then, and effective draping will be devised as for all the costumes. Final orders will then be given, and the dresses will then be complete in time for use at

Lawlessness Prevails Throughout the Island, and There

Bitterly Attacks the Course of

The latest news from Port-au-Prince is that Hyppolite's forces are closing in on the city. Legitime's career is believed to be nearly ended. In the interior of the island a horrible state of affairs prevails, and caunibalism is practiced. The steamer Haytien Republic has not been released. A Legitimist newspaper is very bitter on the

PORT-AU-PRINCE, HAYTI, December 30. As this dispatch is being written the deposition of Legitime by the dissatisfied citizens of the Capital, or by the advancing victorious troops of the North under Hyppolite, appears to be shortly expected by all but the immediate supporters of Legitime. Three battles have been fought and lost by the Legitimists in the past ten days.

The first, near Hinche, was most disastrous followed by an engagement on December 22 a few miles portheast by road from here. During the rapid retreat on the Capital two divisions of the Southern army deserted to

pursuing Northerners. The army of the North is entrenching itself some 20 miles from Port-au-Prince, completing their lines of communication, reorganizing their augmented army and awaiting the arrival of recently purchased arms and munitions of war. They are also devastating the great agricultural section where they are now encamped, and from which Legitime received the greater portion

of his supplies. General Hyppolite, having been elected and declared Provisional President by the central and northern departments, on his capture of the capital will demand a Congress of Deputies from all the departments and the election of a permanent President, declaring Legitime's election unconstitutional and void. He will probably then be the only candidate in the field.

HORRIBLE CANNIBALISM. Without law, life or property is unsafe in this section. Excess of every kind is the rule. The horrid canniballistic rites of youdooism are revived, and reports reach this city of a meeting of several thousand Christ-mas night near Jacmel, and the sacrifice of devastation of the central part of the island has been the cause of the robbery of recently buried bodies, and the devouring of the same. These are well authenticated facts. The French warships cabled for have not

thrown overboard, the letters opened and found to contain statements implicating Port-au-Prince, most of whom were previously unsuspected. All have been thrown into prison, and it is feared that all will be for such action, was another high handed outrage. The cargo of provisions was in-stantly appropriated as being much needed.

NOT A LEGAL BLOCKADE. The whole Haytian navy, consisting of some eight vessels, occupied the inner harbor December 24 and 25, thus rendering null and void any previous blockade. The Haytians claim they were ordered in to prevent the seizure of the steamship Haytien Republic, but their real mission was to detend Port-au-Prince from Hyppolite's forces. The French Minister Le Compte de Leo Maisons will be recalled as soon as Hyppolite, who has already cabled a protest to Paris, reaches Port-au-Prince.
The steamship Haytien Republic is still

in the hands of Admiral Luce. While it is impossible to secure the \$350,000 indemnity demanded for her detention and damage property of her owners, passengers and crew, it is thought that it will be possible to secure some cash down. The Government pleads poverty, but has recently paid \$100,-000 for a former English mail steamer which they have fitted out as a gunboat, and on December 26 paid to the steamer Andes \$27,500 for 5,000 Winchester rifles and 100,000 rounds ammunition-all in gold. It is also claimed that Legitime has appropriated to his own privy purse all the re-mainder of the cash in the treasury and will flee by his fastest gunboat as soon as his fall is an assured fact. Unless the indemnity is

rage.) It is deplorable for a great and historical nation, and a republic as well, to abuse its power by oppressing the feeble in illegally opposing the power of reason with its guns. But after all is it the great and historical nation which must be accused, or is it her accredited representatives who abuse their great power by leading their Government into wrong action. This is what has taken place in our little Republic, which, from its geographical position, should appeal to its protection or certainly to its impartiality. The United States is our senior. A civil war prevails, a merchant ship—the Haytien Republic—sides with the rebels, interferes with our affairs, transports arms and material of war, soldiers and delegates for the insurgents. It is deplorable for a great and historical na-A Jealous Italian Lover Performs a Light-

A blockade is declared, and, in defiance of all A blockade is declared, and, in defiance of all rights, this vessel forces this blockade, after having attempted to stir up the people of peaceful towns to revolt. The capture is made after the blockade had been duly established, and after due judgment this prize has been declared a legal one. Nothing can be said in defense. No argument, no protestation can be made against it, as it is clear and in evidence that the vessel is a legal prize. But here we have Mr. Thompson, Consul for the United States, who, notwithstanding the declared opinion of the American press that the United States Cabinet should not join in with the rebels against a friendly nation, but, on the contrary, should abide by a judicial decree. This we submit to the judgment of the press of America and Europe." America and Europe.

A FIERCE STRUGGLE.

Both Parties Trying to Organize the West Virginia Legislature - Kenna's Strength Great in the Democratic Caucus.

ISPECIAL TELEGRAM TO THE DISPATCH.1 CHARLESTON, W. VA., January 8 .- The embers of the Legislature are all here The Senate stands: Democrats, 12; Repubicans, 13. Independent Union Labor, 1. One Republican Senator, it is said, will not vote with his party because of ill treatment at their hands two years ago. The House stands: Democrats, 34; Republicans, 31, but it is also said by some that there are some disaffected Democrats in the House who may not be relied upon to vote for regular caucus nominees, so that the organization of either House is uncertain. The Union Labor Senator did not go into either caucus, so his course is unknown. The only action to be expected from the session i

Fleming, Democrat, has served notice of ontest on Goff, Republican, for Governor, and it is rumored the Secretary of State will be enjoined from delivering the results of the election to the Legislature, as Goff would have 30 days in which to file his reply and 30 more in which to carry on the contest, by which time the session would be over and Goff would be Governor until a special session should be called. Both parties are determined to do all in power to obtain the Governor, the Republicans claiming the election on the face of the returns, and the Democrats claiming Fleming's election if the most palpable frauds are thrown out. No stone will be left unturned by either side.

On joint hellot the Democrats have a management

On joint ballot the Democrats have a ma ority of one, counting the Independent as Republican, so that unless there is a split Republican, so that unless there is a split in the party a Democrat will be elected. Should a caucus be held now it is certain that Kenna, Democrat, would receive the nomination of his party, but whether he would receive their unanimous indorsement is questionable. To-night nothing definite can be known. Both parties working hard to organize the Houses.

Caucuses were held this evening and the Democratic nominees are: For Speaker of

Democratic nominees are: For Speaker of the House, J. J. Woods, of Wheeling; Clerk, J. M. Hamilton, of Calhoun county. These nominations show that Kenna's strength is the greatest, notwith-standing rumors of disaffected Democrats. These nominees will probably be elected.

Up to a late hour the Republicans were still in caucus, and nothing is known as to their nominees, although it is probable that B. S. Carr, Union Labor, will receive their nomination for President of the Senate, which will be understood as a bid for his

How Quay, Clarkson and Dudley, it is Said, Robbed the Prohibition Organ of its Effectiveness-A Tale of Two Thieving Clerks. PERCUAL TELEGRAM TO THE DISPATCH.

NEW YORK, January 8,-The proprietors and publishers of the Voice, the organ of the Prohibition party, make some very unpleasant charges against Quay, Clarkson and Dudley, the managers of the Republican campaign. They are to the effect that two clerks in the office of the Voice stole the Voice's mailing lists and sold them to Quay and Clarkson for \$200 and a promise of other situations. These lists, it is alleged, were used during

the Prohibition party, the 5,000 subscribers to the Voice being flooded with Republican anti-Prohibition literature in the place of their regular organ. The story covers nine columns of this week's issue of the paper, and is backed up week's issue of the paper, and is backed up-with the sworn confessions of the two thiev-ing clerks, and fac simile copies of brief-notes from Clarkson and Dudley. These notes, however, are not in any way com-

promising, except in so far as they show that Clarkson and Dudley were in correspondence with the thieving clerks.

The story would indicate that Clarkson entered into negotiations with the clerks with the expectation of receiving from them proof that the Prohibition campaign was being backed by funds from Democratic ources. There is no proof of this, however.
One of the two dishonest clerks was a deaf mute. He was arrested a few days since at Braddock, Pa., and brought here from Pitts-

The high priest wore a robe of blue silk, mandarin costumes, but the rank and file wore the ordinary blue blouse. No women were present. The opening ceremony was the bringing

in of an immense roast pig on a red woode tray. The pig, which was curiously painted and decorated, was placed on a table in front of the altar. Around it were grouped other offerings to Joss in the shape of boiled goats' flesh, chickens, pigeons, ducks, young pigs, etc. These offerings were variously isguised by Chinese cuisine skill. A duck, for example, was made up to look like a small deer with an unusually broad snout; chickens were ornamented with peacocks' heads and tails, so that they resembled the vainer fowl, and were so carved as to look like miniature dragons; the suckling pigs were decorated with queer shapes; the differently colored cakes were arranged in pyramids, and the other things were made aspicuous, either by their bright colors or

unusual shapes. THE ALLEGED MUSIC. The appearance of the offerings was hailed by the clashing of cymbals and beating of tom-toms, which could be heard at the neighboring Church of the Transfiguration, where early mass was in progress. The musicians, who were 12 in number, also bore gongs, violins, drums, flutes and a sort of instrument which evolved sounds like those of a bagpipe. The dedication services were conducted by clans, or families, of whom there are about 20 in the Chinese colony, the Mooy clan having the first call. Mooy Chuen occupied a conspicuous place

As the priests, with heads bent down, stood in front of the shrine, one of the elders in mandarin costume chanted:
